

## Publications: PETER CARGILL

- (1) Siphon Flows in Coronal loops, (P.J. Cargill and E.R. Priest), **Solar Phys.**, **65**, 251-269, (1980).
- (2) Slow Shock Heating and the Kopp - Pneuman Model for Post-Flare Loops, (P.J. Cargill and E.R. Priest), **Solar Phys.**, **76**, 357-375, (1982).
- (3) The Energetics of Steady State Flow in the Solar Corona, (P.J. Cargill and E.R. Priest), **Geophys. and Astrophys. Fluid Dynamics**, **20**, 227-245, (1982).
- (4) The Heating of Post-Flare Loops, (P.J. Cargill and E.R. Priest), **Astrophys. J.**, **266**, 383-389, (1983).
- (5) Magnetohydrodynamic Stability of Line-Tied Coronal Arcades. 1. Force-Free Fields Without Embedded Prominences, (S. Migliuolo and P.J. Cargill), **Astrophys. J.**, **271**, 820-831, (1983).
- (6) Diamagnetic Propulsion and Energy Balance of Magnetic Elements in the Solar Chromosphere and Transition Region, (P.J. Cargill and G.W. Pneuman), **Astrophys. J.**, **276**, 369-378, (1984).
- (7) Magnetohydrodynamic Stability of Line-Tied Coronal Arcades. II. Shearless Magnetic Fields, (S. Migliuolo, P.J. Cargill and A.W. Hood), **Astrophys. J.**, **281**, 413-419, (1984).
- (8) The Development and Cooling of a Solar Limb-Flare, (N. Veck, K. Strong, G. Simnett, C. Jordan, P.J. Cargill and E.R. Priest), **Monthly Notices of the Royal Astronomical Society**, **210**, 443-462, (1984).
- (9) Activation of Solar Flares, (P.J. Cargill and S. Migliuolo and A. Hood) in **Proc. Summer School on Plasma Astrophysics, Varenna, Italy, ESA SP-207**, pp. 57-63, (1984).
- (10) Suggestions for Future Investigations, (B. Roberts, G. Einandi, G. Torricelli, P.J. Cargill and C. Durrant) in **Orages Solaire de Type 1**, ed. J.L. Bonqeret and A.O. Benz, CNRS, pp. 183-184, (1984).
- (11) Evolution of Diamagnetic Material in a Non-uniform Magnetic Field, (G.W. Pneuman and P.J. Cargill), **Astrophys. J.**, **288**, 653-664, (1985).
- (12) The Interaction of Two Perpendicular Shocks, (P.J. Cargill, C.C. Goodrich and K. Papadopoulos), **Phys. Rev. Letters**, **56**, 1988-1991, (1986).
- (13) The Energy Balance of Plasmoids in the Solar Atmosphere, (P.J. Cargill and G.W. Pneuman), **Astrophys. J.**, **307**, 820-825, (1986).
- (14) Magnetohydrodynamic Stability of Line-Tied Coronal Arcades. III. Sheared Magnetic Fields, (P.J. Cargill, A. Hood and S. Migliuolo), **Astrophys. J.**, **309**, 402-408, (1986).

- (15) Preflare Activity, (E.R. Priest, **P.J. Cargill**, T.G. Forbes, A.W. Hood and R.S. Steinolfson), in **Energetic Phenomena on the Sun, NASA CP-2439**, ed. M.R. Kundu and B.E. Woodgate, pp. 1.3-1.16, (1986).
- (16) Flares Energetics, (S.T. Wu, C. de Jager, B.R. Dennis, H.S. Hudson, G.M. Simnett, K.T. Strong, R.D. Bentley, P.L. Bornmann, M.E. Bruner, **P.J. Cargill**, C.J. Crannell, J.G. Doyle, C.L. Hyder, R.A. Kopp, J.R. Lemen, S.F. Martin, R. Pallavicini, G. Peres, S. Serio, J. Sylwester and N.J. Veck), in **Energetic Phenomena on the Sun, NASA CP-2439**, ed. M.R. Kundu and B.E. Woodgate, pp. 5.1-5.73 (1986).
- (17) Shock Wave Interactions in a Collisionless Plasma, (**P.J. Cargill** and C.C. Goodrich), **Phys. Fluids. 30**, 2504-2517, (1987).
- (18) Collisionless Shock Formation and the Prompt Acceleration of Solar Flare Ions, (**P.J. Cargill**, C.C. Goodrich and L. Vlahos), **Astron. and Astrophys.**, 189, 254-262, (1988).
- (19) A Mechanism for Strong Electron Heating at Shocks in Supernova Remnants, (**P.J. Cargill** and K. Papadopoulos), **Astrophys. J. Letters**, **329**, L29-L32, (1988).
- (20) Is the Cometary Bow Shock Really a Shock?, (**P.J. Cargill**, K. Hizanidis and K. Papadopoulos), in **Cometary and Solar Plasma Physics**, ed. B. Buti, World Scientific Publishing, pp. 285-309, (1988).
- (21) Resonance Absorption of Alfvén Waves at Comet Solar Wind Interaction Regions, (A.S. Sharma, **P.J. Cargill**, and K. Papadopoulos), **Geophys. Res. Lett.**, 15, 740-743, (1988).
- (22) Lower Hybrid Waves Upstream of Comets and Their Implications for Cometary Bow Shocks, (K. Hizanidis **P.J. Cargill** and K. Papadopoulos), **J. Geophys. Res.**, 93, 9577-9583, (1988).
- (23) Particle Acceleration and Plasma Heating at Collisionless Shocks in Solar Flares, (**P.J. Cargill** and L. Vlahos), in **Solar and Stellar Flares**, Pub. Catania Astrophys. Observatory, pp. 325-328, (1989).
- (24) The Radio Signatures of Slow Coronal Mass Ejection: Electron Acceleration at Slow Mode Shocks?, (M. Kundu, N. Gopalswamy, S. White, **P.J. Cargill**, E. Schmahl and E. Hildner), **Astrophys. J.**, **347**, 505-513, (1989).
- (25) Magnetic and Boundary Effects on Thermal Instabilities in Solar Magnetic Fields: Ballooning Modes in a Slab Geometry, (**P.J. Cargill** and A.W. Hood), **Solar Phys.**, **124**, 101-127, (1989).
- (26) Hybrid Simulations of Tangential Discontinuities, (**P.J. Cargill**) **Geophys. Res. Lett.**, **17**, 1037-1040, (1990).
- (27) The Merging of Quasi-Perpendicular Collisionless Shocks, (**P.J. Cargill**) **Phys. Fluids B2**, 2294-2299, (1990).

- (28) The Formation of Discontinuities as a Result of Shock Collisions, (P.J. Cargill), **J. Geophys. Res.**, **95**, 20731-20741, (1990).
- (29) An Investigation of the Structure of Rotational Discontinuities, (C.C. Goodrich and P.J. Cargill), **Geophys. Res. Lett.**, **18**, 65-68, (1991).
- (30) The Interaction of Collisionless Shocks in Astrophysical Plasmas, (P.J. Cargill) **Astrophys. J.**, **376**, 771-781, (1991).
- (31) The Structure of Tangential Discontinuities: 1. Results of Hybrid Simulations, (P.J. Cargill and T. E. Eastman), **J. Geophys. Res.**, **96**, 13763-13779, (1991).
- (32) The Formation of Quasi-Parallel Shocks, (P.J. Cargill), **Adv. Space. Res.**, **11(9)**, 209-218, 1991.
- (33) Collisions Between Quasi-Parallel Shocks (P.J. Cargill), **Adv. Space. Res.**, **11(9)**, 241-244, 1991.
- (34) Hybrid Simulations of Rotational Discontinuities, (C.C. Goodrich and P.J. Cargill), **Adv. Space. Res.** **11(9)**, 107-110, 1991.
- (35) Ion Acceleration at Collisionless Shock Interactions, (P.J. Cargill), in **Particle Acceleration in Cosmic Plasmas**, **AIP Conf. Proc.**, **264**, 342-347, 1992.
- (36) Evolution and Oscillations of Coronal Loops, (P.J. Cargill, J. Chen and D. A. Garren, in **Coronal Streamers, Coronal Loops, and Coronal and Solar Wind Composition**, **ESA Publication SP-348**, 249-252, 1992.
- (37) Temperature Dependent Morphology of Untwisted Coronal Loops, (D. A. Garren, J. Chen and P.J. Cargill), in **Coronal Streamers, Coronal Loops, and Coronal and Solar Wind Composition**, **ESA Publication SP-348**, 241-244, 1992.
- (38) A Comparison of the Dynamical Signatures of Coronal Heating Mechanisms, (P.J. Cargill) in **Coronal Streamers, Coronal Loops, and Coronal and Solar Wind Composition**, **ESA Publication SP-348**, 245-248, 1992.
- (39) The Evolution of Strongly Modulated, Low Frequency, Moderate Amplitude Wave Packets in a Dispersive Plasma, (B. J. Vasquez and P.J. Cargill), **Phys. Fluids B-5**, 42-52, 1993.
- (40) A Wave-Model Interpretation of the Evolution of Rotational Discontinuities, (B. J. Vasquez and P.J. Cargill), **J. Geophys. Res.**, **98**, 1277-1292, 1993.
- (41) The Fine Structure of a Nanoflare Heated Corona (P.J. Cargill), **Solar Physics**, **147**, 263-268, 1993.
- (42) Equilibrium Morphology of Slender Untwisted Flux Loops, (D. A. Garren, J. Chen and P.J. Cargill), **Astrophys. J.**, **418**, 919-927, 1993.

- (43) Microstructure of the Magnetopause, (T. E. Eastman, B. Anderson, **P.J. Cargill**, S. A. Fuselier, and J. T. Gosling), **Adv. Space. Res.**, **12 (5)**, 243-247, 1994.
- (44) Some Implications of the Nanoflare Concept, (**P.J. Cargill**), **Astrophys. J.**, **422**, 381-393, 1994.
- (45) Evolution and Oscillations of Current-Carrying Loops in the Solar Corona, (**P.J. Cargill**, J. Chen and D. A. Garren), **Astrophys. J.**, **423**, 854-870, 1994.
- (46) The Experimental Signatures of Coronal Heating Mechanisms (**P.J. Cargill**) in **Solar System Plasmas in Space and Time**, **AGU Monograph 84**, Ed. J. L. Burch and J. H. Waite, Jr., 21-31, 1994.
- (47) One Dimensional Hybrid Simulations of Current Sheets in the Quiet Magnetotail, (**P.J. Cargill**, J. Chen and J. B. Harold), **Geophys. Res. Lett.**, **21**, 2251-2254, 1994.
- (48) Modulational Instability of Lower Hybrid Waves at the Magnetopause, (V. Shapiro, V. Schevchenko, **P.J. Cargill** and K. Papadopoulos), **J. Geophys. Res.**, **99**, 23735-23740, 1994.
- (49) The Deformation of Flux Tubes in the Solar Wind with Applications to the Structure of Magnetic Clouds and CMEs, (**P.J. Cargill**, J. Chen, D. S. Spicer and S. T. Zalesak), in **Proc 3rd SOHO Workshop**, **ESA SP-373** 291-296, 1994.
- (50) The Cooling of Solar Flare Plasmas: 1. Theoretical Considerations, (**P.J. Cargill**, J. T. Mariska and S. K. Antiochos), **Astrophys. J.**, **439**, 1034-1043, 1995.
- (51) Geometry of Interplanetary Magnetic Clouds, (**P.J. Cargill**, J. Chen, D. S. Spicer and S. T. Zalesak), **Geophys. Res. Lett.**, **22**, 647-650, 1995.
- (52) Global and Local Geospace Modelling in ISTP, (K. Papadopoulos, J. Lyon, C. C. Goodrich, **P.J. Cargill**, A. S. Sharma, R. Kulkarni, C.-L. Chang and A. Mankofsky), **Space Sci. Revs.**, **71**, 671-690, 1995.
- (53) Plasma Physics of Solar-Terrestrial Coupling, (J. Chen, **P.J. Cargill**, S. P. Slinker and J. A. Fedder), **1995 NRL Review**, **NRL/PU/5230--95-274**, 209-212, 1995.
- (54) Diagnostics of Coronal Heating, (**P.J. Cargill**), in **Infrared Tools for Solar Astrophysics: What's Next?**, Ed. J. Kuhn and M. Penn, World Scientific Publishing, 17-29, 1995.
- (55) MHD Simulations of the Motion of Magnetic Flux Tubes through a Magnetized Plasma, (**P.J. Cargill**, J. Chen, D. S. Spicer and S. T. Zalesak), **J. Geophys. Res.**, **101**, 4855-4870, 1996.
- (56) Real-Time Identification and Prediction of Geoeffective Solar Wind Structures, (J. Chen, **P.J. Cargill** and P. Palmadesso), **Geophys. Res. Lett.**, **23**, 625-628, 1996.
- (57) A Possible Difficulty with a Nanoflare-heated Corona, (**P.J. Cargill**), **Solar Phys.**, **167**, 267-279, 1996.

- (58) Do Protons or Electrons Dominate Particle Acceleration in Solar Flares?, (**P.J. Cargill**), **EOS, Trans. AGU, 77(37)**, 353-357, 1996.
- (59) A Nanoflare Explanation for the Heating of Coronal Loops Observed by Yohkoh, (**P.J. Cargill** and J. A. Klimchuk), **Astrophys. J., 478**, 799-806, 1997.
- (60) Critical Issues for Understanding Particle Acceleration in Impulsive Solar Flares, (J. A. Miller, **P.J. Cargill**, A. G. Emslie, G. D. Holman, B. R. Dennis, T. D. LaRosa, R. M. Winglee, S. G. Benka and S. Tsuneta), **J. Geophys. Res., 102**, 14631-14660, 1997.
- (61) Predicting Geoeffective Solar Wind Structures, (J. Chen, **P.J. Cargill** and P. Palmadesso), **J. Geophys. Res., 102**, 14701-14720, 1997.
- (62) MHD Simulations of Alfvénic Pulse Propagation in Solar Magnetic Flux Tubes: Two Dimensional Slab Geometry, (**P.J. Cargill**, D. S. Spicer and S. T. Zalesak), **Astrophys. J., 488**, 854-866, 1997.
- (63) Storms in Space, (**P.J. Cargill**), **Navigation News, Jan/Feb 1998**, 12-14, 1998.
- (64) Simulation of Buoyant Flux Ropes in a Magnetized Solar Atmosphere, (J. Krall, J. Chen, R. Santoro, D. S. Spicer, S. T. Zalesak and **P.J. Cargill**), **Astrophys. J., 500**, 992-1001, 1998.
- (65) European Plans for the Solar Stereo Mission - Brief Summary of the European Stereo Steering Team (ESST), (V. Bothmer, J. L. Bougeret, **P.J. Cargill**, J. Davila, J.-P. Delaboudiniere, R. A. Harrison, S. Koutchmy, P. Maltby, D. Rust and R. Schwenn), in **A Crossroads for European Solar and Heliospheric Physics, ESA SP-417**, 145-151, 1998.
- (66) Prediction of Geomagnetic Storms Associated with Halo CMEs of January and April 1997, (J. Chen, S. Slinker and **P.J. Cargill**), in **Proc. Workshop on Space Weather, ESA WPP-155**, 403-406, 1999.
- (67) Multi-Point Magnetospheric Satellite Network for Space Weather Applications, (S. J. Schwartz, **P.J. Cargill**, A. Balogh, A. D. Johnstone and A. N. Fazakerley) in **Proc. Workshop on Space Weather, ESA WP-155**, 477-480, 1999.
- (68) A model for plasma flows and shocks in the high latitude cusp, (**P.J. Cargill**), **J. Geophys. Res., 104**, 14647-14654, 1999.
- (69) Mirror-mode structures observed in the dawn-side magnetosheath by Equator-S, (E.A. Lucek, M.W. Dunlop, A. Balogh, **P.J. Cargill**, W. Baumjohann, E. Georgescu, G. Haerendel and K.-H. Fornacon), **Geophys. Res. Lett., 26**, 2159-2162, 1999.
- (70) Ordering the Earth's Magnetic Field by GME Coordinates: Lessons from HEOS, (M. W. Dunlop and **P.J. Cargill**), **J. Geophys. Res., 104**, 17449-17457, 1999.
- (71) SWARM: A Fleet of Microsatellites to Explore the Magnetosphere, (S. J. Schwartz, A. Balogh, **P.J. Cargill**, A. N. Fazakerley and A. D. Johnstone), in **Science Closure and**

**Enabling Technologies for Magnetospheric Constellations**, Ed. V. Angelopoulos, 63-65, 1998.

- (72) A survey of compressional signatures observed by Equator-S in the dawn-side magnetosheath: mirror mode identification, (E.A. Lucek, M.W. Dunlop, A. Balogh, **P.J. Cargill**, W. Baumjohann, E. Georgescu, G. Haerendel and K.-H. Fornacon), **Annales Geophys.**, **17**, 1560-1573, 1999.
- (73) The dynamics of accelerated density enhancements above coronal streamers, (J. M. Schmidt and **P.J. Cargill**), in **Proc. 9th European meeting on solar physics, ESA SP-448**, 1211-1216, 1999.
- (74) Coronal mass ejections in a sheared flow, (J. M. Schmidt and **P.J. Cargill**), in **Proc. 9th European meeting on solar physics, ESA SP-448**, 997-1002, 1999.
- (75) The HEOS magnetic field observations of the Earth's cusp in the context of modern field models, (M. W. Dunlop, **P.J. Cargill** and T. J. Stubbs), in **Multiscale/Multipoint plasma measurements, ESA SP-449, 359-362**, 2000.
- (76) Observations of the northern polar cusp with the POLAR spacecraft, (T. J. Stubbs, **P.J. Cargill**, M. Grande, B. Kellett, M. Lockwood and C. Perry) in **Multiscale/Multipoint plasma measurements, ESA SP-449, 319-322**, 2000.
- (77) The Magnetic Structure of Overexpanding Coronal Mass Ejections, (**P.J. Cargill**, J. M. Schmidt, D. S. Spicer and S. T. Zalesak), **J. Geophys. Res.**, **105**, 7509-7519, 2000.
- (78) A Model for Accelerated Density Enhancements Emerging from Coronal Streamers in LASCO Observations, (J. M. Schmidt and **P.J. Cargill**), **J. Geophys. Res.**, **105**, 10455-10464, 2000.
- (79) The Evolution of Magnetic Flux Ropes in Sheared Plasma Flows, (J. M. Schmidt and **P.J. Cargill**), **J. Plasma Physics.**, **64**, 41-55, 2000.
- (80) The High Altitude Cusps: HEOS-2 (M. W. Dunlop, **P.J. Cargill**, T. J. Stubbs and P. Woolliams), **J. Geophys. Res.**, **105**, 27509-27518, 2000.
- (81) Theories of Heating and Particle Acceleration in the Solar Corona, (**P.J. Cargill**), **Adv. Space Res.**, **26(11)**, 1759-1768, 2000.
- (82) Solar Flares: Particle Acceleration Mechanisms, (**P.J. Cargill**), in **Encyclopedia of Astronomy and Astrophysics**, Ed. P. Murdin, 2546-2549, 2000.
- (83) Millennium MIST, (N. Arnold, **P. J. Cargill**), **Astron & Geophys**, **41(4)**, 28 – 30, 2000
- (84) Dawn/dusk Asymmetry in particles of solar wind origin within the magnetosphere (T. J. Stubbs, M. Lockwood, **P.J. Cargill**, J. Fennel, M. Grande, B. Kellett, C. Perry and A. Rees), **Annales Geophys.**, **19**, 1-9, 2001.

- (85) The magnetopause at ultra-high time resolution: structure and lower hybrid waves, (E.A. Lucek, **P.J. Cargill**, M.W. Dunlop, L. Kistler, A. Balogh, W. Baumjohann, E. Georgescu, G. Haerendel and K.-H. Fornacon), **Geophys. Res. Lett.**, **28**, 681-684, 2001.
- (86) Magnetic cloud evolution in a multi-speed solar wind, (J. M. Schmidt and **P.J. Cargill**), **J. Geophys. Res.**, **106**, 8283, 2001.
- (87) Spectroscopic diagnostics of nanoflare-heated coronal loops, (J.A. Klimchuk and **P.J. Cargill**), **Astrophys. J.**, **553**, 440-448, 2001.
- (88) Coronal mass ejections at the Sun and in interplanetary space, (**P.J. Cargill**), in **Proc. NATO ASI on Space storms and space weather hazards**, Kluwer, 177 – 207, 2001.
- (89) Ulysses' Observations Of Magnetohydrodynamic Turbulence In Co-rotating Interaction Regions, (M. Gulamali and **P.J. Cargill**), **J. Geophys. Res.**, **106**, 15687-15699, 2001.
- (90) Equator-S magnetopause crossings at high time resolution, (E.A. Lucek, **P.J. Cargill**, M.W. Dunlop, L. Kistler, A. Balogh, W. Baumjohann, K.-H. Fornacon, E. Georgescu, and G. Haerendel), **J. Geophys. Res.**, **106**, 25409-25418, 2001.
- (91) Magnetic field observations on Cluster: An overview of the first results, (A. Balogh, **P.J. Cargill**, C.M. Carr, T.S. Horbury, E.A. Lucek and the FGM team), **ESA SP-492**, 11-18, 2001.
- (92) First Cluster-II results of the magnetic field structure of the medium and high-altitude cusps, (**P.J. Cargill**, M.W. Dunlop, A. Balogh and the FGM team), **Ann. Geophys.**, **19**, 1533-1544, 2001.
- (93) Cluster observes the Earth's magnetopause: Co-ordinated four-point magnetic field measurements, (M.W. Dunlop, A. Balogh, **P.J. Cargill**, R.C. Elphic and the FGM team), **Ann. Geophys.**, **19**, 1449-1462, 2001.
- (94) Cluster magnetic field observations in the magnetosheath: four point measurements of mirror structures, (E.A. Lucek, M.W. Dumlop, T.S. Horbury, A. Balogh, **P.J. Cargill** and the FGM team), **Ann. Geophys.**, **19**, 1421-1428, 2001.
- (95) Cluster magnetic field observations of the bow shock: orientation, motion and structure, (T.S. Horbury, **P.J. Cargill**, E. Lucek, A. Balogh, M. Dunlop and the FGM team), **Ann. Geophys.**, **19**, 1399-1410, 2001.
- (96) A general theory of MHD self-similar expansion waves in magnetohydrodynamic flows, (M. G. G. T. Taylor and **P.J. Cargill**), **J. Plasma Phys.**, **66**, 239-257, 2001.
- (97) Correlation of magnetic field intensities and solar wind speeds for events observed by ACE, (M. Owens and **P.J. Cargill**), **J. Geophys. Res.**, **107**, 10.1029/2001JA000238, 2002.
- (98) A Magnetohydrodynamic model of plasma flow in the high-altitude cusp, (M. G. G. T. Taylor and **P.J. Cargill**), **J. Geophys. Res.**, **107**, 10.1029/2001JA900159, 2002.

- (99) Modelling Interplanetary CMEs using Magnetohydrodynamic Simulations, (**P.J. Cargill** and J.M. Schmidt), **Ann. Geophys.**, **20**, 879-890, 2002.
- (100) Four spacecraft measurements of the terrestrial bowshock: orientation and motion (T.S. Horbury, **P.J. Cargill**, E.A. Lucek, J. Eastwood, A. Balogh, M.W. Dunlop and K.-H. Fornacon and E. Georgescu, **J. Geophys. Res.**, **107**, 10.1029/2001JA000273, 2002.
- (101) Equator-S observations of ion cyclotron waves outside the dayside magnetopause, (M. W. Dunlop, E.A. Lucek, L. Kistler, **P.J. Cargill**, A. Balogh, W. Baumjohann,), **J. Geophys. Res.**, **107**, 10.1029/2001JA900170, 2002.
- (102) Cluster Observations of the Exterior Cusp and its Surrounding Boundaries under Northward IMF, (B. Lavraud, M. W. Dunlop, T. D. Phan, H. Rème, J.-M. Bosqued, I. Dandouras, J.-A. Sauvaud, R. Lundin, M. Taylor, **P. Cargill**, C. Mazelle, C. P. Escoubet, C. Carlson, J. P. McFadden, G. K. Parks, E. Moebius, L. Kistler, M.-B. Bavassano-Cattaneo, A. Korth, B. Klecker and A. Balogh), **Geophys. Res. Lett.**, 10.1029/2002GL015464, 2002.
- (103) Cluster magnetic field observations of magnetospheric boundaries (T. S. Horbury, A. Balogh, M. W. Dunlop, **P. J. Cargill**, E. A. Lucek, T. Oddy, P. Brown, C. Carr, K.-H. Fornacon, and E. Georgescu), in **Earth's Low-Latitude Boundary Layer**, ed. P. T. Newell and T. Onsager, American Geophysical Union, Washington D. C., pp. 63-69, DOI: 10.1029/133GM06, 2002
- (104) Cluster magnetic field observations at the quasi-parallel bow shock, (E.A. Lucek, T.S. Horbury, M.W. Dunlop, **P.J. Cargill**, S.J. Schwartz, A. Balogh, C.M. Carr, K.-H. Fornacon and E. Georgescu, **Annales Geophys.**, **20**, 1699-1710, 2002.
- (105) Coupling models of disparate physical processes in the solar corona: the case of fragmented energy release, (**P.J. Cargill**), in **Magnetic coupling of the solar atmosphere, ESA-SP 505**, 245-251, 2002.
- (106) Magnetic reconnection between a magnetic cloud and the solar wind magnetic field, (J.M. Schmidt and **P.J. Cargill**), **J. Geophys. Res.**, **108**, 10.1029/2002JA009325, 2003.
